To raise awareness of Member Charities' children with different types of developmental disabilities, physical impairments, and the socially disadvantaged

To support and assist Member Charities' initiatives and strategies to educate, train and prepare the children to lead dignified lives, function independently, and integrate into society

To organise and coordinate activities to benefit Member Charities

The Children's Charities Association of Singapore (CCA) began as an unstructured group of charities benefitting children. The charities got together to organise joint fundraising projects in the 1960s.

The success of the first Christmas Fair organised in 1965 at the Victoria Memorial Hall drove home the need for a formal organisation.

In 1966, the Association was inaugurated through the untiring efforts of the late Mr. Francis Thomas who became the founding Chairman. It was subsequently registered by the Registrar of Societies and granted the status of an Institution of Public Character in 1972.

We are the co-ordinating body purposed to raise awareness of the needs of member charities, and organise fundraising projects for member charities, which have the common objective of helping physically, mentally and socially disadvantaged children of Singapore.

The original four member charities are:

Singapore Children's Society

The Singapore Association for the Deaf

Cerebral Palsy Alliance Singapore

Movement for the Intellectually Disabled of Singapore

St. Andrew's Mission Hospital became the fifth member charity to join CCA in 1971.

The sixth member charity to join CCA in 1977 is **Association for Persons with Special Needs**.

Our efforts are not only directed at alleviating the disablement of children but also at giving them hope for the future.

Our member charities are single minded in their efforts to educate, train and assist the children under their care to become independent and useful citizens who can play their role in the nation.

MINDS Children 's Wing - A First for Children with intellectual Disability

MINDS was founded in 1962 by a group of philanthropists who believed in the potential abilities of person with intellectual disability. Since then, MINDS has grown to become one of the oldest and largest non-government organizations catering to the need of people with moderate to severe intellectual disability in Singapore.

MINDS started its Children's Wing (CW) at MINDSville@Napiri as Singapore's first home set up solely for children with intellectual disability from six to 18 years old.

The children at CW are typically from needy and/or single-parent families who are unable to care for them continually.

Funding and support from The Children's Charities Association of Singapore (CCA) goes to the CW which aims to promote and prepare children with intellectual disability to re-integrate back into their families.

Providing the Children a Healthy, Safe, and Supportive Learning Environment

The CW provides learning and various forms of rehabilitation such as Occupational Therapy (OT), Physiotherapy (PT) and Speech Therapy (ST) and the sessions aim to help develop the children's living and social skills. CW also collaborates with the schools the beneficiaries attend, working closely with their OT, ST, PT, etc. to carry out early interventions and implement effective programmes to hone abilities and aid beneficiaries to re-integrate with the family.

The Snoezelen (Sensory) room at CW established since year 2006, has been extremely successful in stimulating the senses of the children. It is a safe environment that uses multi-sensory equipment to enhance

sensory abilities and broadened their learning spectrum, provide treatment to their need, recreation options and/ or creating a relaxing experience for them.

Every child is assessed after admission and an Individual Care Plan (ICP) is carefully drawn up and implemented, with a section on family interventions. The ICP is reviewed every three months to ensure the interventions are appropriate and have targeted outcomes that are beneficial to the beneficiaries. It is more focused on addressing the need of the child rather than the family issues. ICP would spell out the needs of the child, and based on that, work with them and guide them on various areas to improve their Activities of Daily Living skills, Social Skill etc.

Although ICP is client-centric, family cooperation is essential so that the intervention and training will be continual and consistent when they bring their child back for home leave.

The varieties of activities provided aimed to create a stimulating and meaningful learning environment which includes music & movement, art and craft, science experiments, housecraft, home management skills training, show and tell program, money skills, traveling lessons, computer time and circle time.

Apart from that, MINDS' psychologists also focus on supporting and addressing the children's challenging behaviours. The specialists customize programmes that reiterate adaptive

and appropriate behaviours. Anger Management and Sexual Education are also provided to inculcate good behaviors.

Strengthening Families Program

Every six months, CW organizes gatherings to support families in understanding and meeting their children's needs, and to maintain the bond between families and their children. It is an avenue for families to receive updates from the staff and share concerns they might have regarding their children.

The gathering will start off with group discussion amongst caregivers and professional staff, where caregivers can share and learn new parenting tips to boost their parenting capacity and improve family ties. After which, everyone will come together for a fun time filled with family-bonding activities.

Families are also encouraged to attend the MINDS' Caregiver Support Initiative programmes and MINDS Siblings Team activities to meet other families and support one another.
